

Required Conditions for Drone Flights

Drone flights must follow FAA requirements and safety protocols.

Assured Safety

Aerial imaging requires adherence to safety and privacy regulations.

We demonstrate our commitment to safety through Federal Aviation Authority (FAA) Part 107 certification, compliance with regulations, and comprehensive insurance.

Required Weather Conditions

- Sunny
- High cloud ceiling
- Low light & night time

- Very windy

- Foggy, rain/drizzle, snow
- Low cloud ceiling
- Extreme heat/cold

Required Permissions

- FAA LAANC approval
- Property/landowner
- Affected parties

Typical Shoot Duration

- Hyperlapse: project duration
- MLS photo/video: 1-2 hours
- Event photo/video: 1 hour+

Additional restrictions may apply, such as temporary flight restrictions (TFR), flight over "gathered assemblies", highways, national parks, government facilities, and airports. Contact us to discuss your aerial imagery needs.
